Terrazzo Collection

When it comes to surface design trends, there's one look that's had a huge impact on both residential and commercial interiors alike. We're talking Terrazzo, the immensely popular floor and wall treatment that has taken the design industry by storm. But it's not just floor surfaces that have taken this style to heart. The Terrazzo trend is everywhere and it's a look with longevity, as our love for this random pattern mix is here to stay.

Taking the trend and developing it for application in any interior, HIMACS Terrazzo can be used for residential, commercial and public projects of any size or style and it's especially appropriate in high traffic areas such as restaurants and bars.

The graphic design, renowned for its speckled, dotted, asymmetrical, imperfect random pattern contrast has evolved over the years to become the abstract illustrative print we know and love today. Terrazzo goes with just about anything and the new HIMACS Terrazzo colours demonstrate this beautifully with the neutral tones of Terrazzo Classico and the industrial feel of Terrazzo Grigio.
